SOLUTIONS

MEET SMARTER

Kramer VIA offers TRUE-Collaboration™ for any size meeting room, conference room, classroom, training room, or huddle space. Connect wirelessly with your own device, collaborate efficiently and engage effectively with everyone in the meeting.

- Wi-Fi or LAN login
- PC, Apple, Android, iOS & Chromebook support
- Full-HD 1080p60 video streaming
- Simple user interface
- 1024-bit encryption, dynamic room codes
- 4K-UHD output for VIA Campus

COLLABORATE WIRELESSLY ANYWHERE

VIA makes presenting, collaborating and sharing content easier and more efficient for any size meeting room, conference room, huddle space, classroom, or training room.

CONFERENCE ROOM

- Video conferencing / unified communication
- Connect up to 254 different devices
- Full suite of collaborative features

HUDDLE SPACE

- Budget conscious connectivity and collaboration options
- Connect from any BYOD including iOS, Android & Chromebook
- Vivid HD video playback

TRAINING ROOM

- Present on main display with group control panel
- ePolling / quizzing functionality
- Advanced content security

VIA CAMPUS

Wireless presentation & collaboration for education, training or any meeting environment

VIA Campus offers advanced collaboration and engagement tools that enhance interactive learning in Education and Corporate Training environments. From any laptop or mobile device, students and teachers can view the main display, edit documents together in real time, share any size file, turn the main display into a digital whiteboard, and more. VIA Campus also lets teachers use e-polling to easily and instantly measure how much students are actually learning.

VIA Campus features mirroring for iOS (MacBook, iPad and iPhone), Lollipop OS 5.0 or newer (Android) and Chromebook. Six user screens can be shown on one main display or up to 12 screens on two displays.

Remote students can easily join the class and collaborate in real time with embedded 3rd-party video conferencing and office apps.

NEW VIA CONNECT PLUS

Simultaneous wired & wireless presentation & collaboration for huddle spaces

VIA Connect PLUS provides simultaneous wired and wireless presentation and collaboration in multiple huddle spaces with no need for any additional hardware. This cost-effective solution includes all the benefits of VIA Connect PRO together with an HDMI input. With any laptop or mobile device, meeting participants can display or stream full uninterrupted HD video (up to 1080p60), images and documents, or share any size file. The whiteboard feature lets you annotate, sketch out ideas or edit shared documents on the main display from your device.

VIA Connect PLUS features mirroring for iOS (MacBook, iPad and iPhone), Lollipop OS 5.0 or newer (Android), and Chromebook. You can show up to four user screens on a single main display.

VIA CONNECT PRO

Wireless presentation & collaboration for huddle spaces

VIA Connect PRO offers a cost-effective solution for installing wireless presentation and collaboration in multiple huddle spaces. With any laptop or mobile device, meeting participants can share any size file and stream full uninterrupted HD video (up to 1080p60), images and documents. Connect PRO's whiteboard feature lets you annotate, sketch out ideas or edit shared documents on the main display from your device. VIA Connect PRO features mirroring for iOS (MacBook, iPad and iPhone), Lollipop OS 5.0 or newer (Android), and Chromebook (in models released as of 2017). You can show up to four user screens on a single main display.

VIA GO

Wireless connectivity and advanced presentation for any meeting space

VIA GO offers quick wireless connectivity and advanced presentation technology from any PC, MacBook, Android, iOS, or Chromebook device.

This simple, yet powerful solution offers a cost-effective way to install cutting-edge wireless presentation in multiple small meeting rooms and huddle spaces.

The product can sit on the internal network like other standard devices (for full management and control) and can also be used as a wireless access point for guests. VIA GO features mirroring for iOS (MacBook, iPad and iPhone), Lollipop OS 5.0 or newer (Android) and Chromebook. You can show up to two user screens on a single main display.

VIA PAD

Now it's easier than ever to share what's on your PC or laptop with everyone in the meeting.

Using capacitive and proximity technologies, VIA PAD lets you instantly show your screen on the main display. Just plug it in and present. No driver download.

VIA SITE MANAGEMENT

VIA Site Management is a software application that lets administrators easily view, configure, and manage all VIA devices within the same network. You can check the status of each device, remotely maintain and configure devices and see who is logged in. You can also perform VIA firmware updates and get statistics and alerts.

VIAware

SOFTWARE-ONLY WIRELESS COLLABORATION

VIAWARE

Wireless presentation & collaboration for education, training or any meeting environment – As a software-only solution!

All the advanced wireless presentation and collaboration tools offered by VIA Campus can now be used on your own PC. VIAware can be installed on any computer running Windows 10, providing IT managers the versatility they need. VIAware works seamlessly with your existing VIA clients and offers full support for all VIA Quick Connect features, such as QR Code, NFC Tag and VIA Pad.

VIAware is available as a one-time license with optional annual upgrade subscriptions or as a recurring monthly subscription.

Forbes

"VIA is one of 5 new technologies you should integrate into your business."

-Ilya Pozin

“

"VIA has become the connectivity and collaboration foundation for many of our classrooms. Its combination of powerful tools, content security and ease of use for our faculty made it an easy decision for me and my team to deploy."

Franklin Jackson, Jr. Classroom Technology & AV Services Manager University of Denver

"Solves the biggest problems associated with BYOD."

Tim McCarthy, UCC Account Manager, Spinitar
